

WARNING!

LED bulbs with wattage of 10 or less MUST be used!

The lampshade is made out of very thin wood. To avoid any unintended damage to it please use only LED bulbs with the product.

Wooden lampshades are very fragile like a piece of fine glassware.

The lampshade is made out of very thin wood. And the wood as any other natural materials need extra care when in use.

- Please hold by the socket base when installing the product or attaching the LED bulb. Only when it is absolutely required to hold the wooden lampshade by itself, please hold it by the hard top part or where it is relatively solid.
- Do NOT hold the product by the thin edge or thin part of the shade, for it is very fragile and may break.

Use extra care when handling the product.

Specifications

LED bulb specifications to consider

Please bear in mind three LED bulbs specifications as shown below when you're purchasing LED bulbs to enjoy the natural beauty of the product.

- LED bulbs emit light in all directions, or offer a wide view angle.
- LED bulbs offer warm, yellowish light color (2700–3500 Kelvin).
- LED bulbs do not extend out of the lampshade when installed.

Maru/Cyoku L	Up to 9cm
Maru/Cyoku M	Up to 7.5cm
Maru/Cyoku S	Up to 6cm
Dome	Up to 8.5cm
Tsubomi	Up to 9.5cm
Dress	Up to 9cm
Bell	Up to 7.5cm

Product Specifications	
Product Name	Yamanaka Usubiki Light
Base Type :	E17
LED Bulb Wattage :	10W or less (LED bulb NOT included.)
Voltage :	AC100V
Shade materials :	Wood, urethane coating
Code Length :	100 cm
Country of Production	Japan

User's Guide

For Yamanaka Usubiki Light – Pendant Light

Before the installation, turned off the power at its main circuit panel.

- To avoid any accidental fire, electric shock, damage, do NOT attempt to modify the product.
- If you notice anything unusual (such as cracks or chips on the lampshade, exposed wire on the cord or on the lighting fixture), notify immediately the store where you purchased the product or the person/company who installed it for you.
- When installing the product, do not attempt to install it by yourself where any wiring installation/change is required. Depending on where you live it may be required to have a professional service provider to install it.

Disclaimer

The product is designed and tested to be used in Japan only for indoor use, If you use it outside Japan or modify it in any way from its original specifications, you will be liable for meeting applicable local laws and regulations of each region/country where you intend to use it. We will NOT be liable for any damage, loss, expense, or injury caused by modified product.

Safety Warning

Wood is a live material. And handle with care. Do NOT use the product in ways or in places described below to avoid any accidental fire, electric shock, or damage to it.

- Do NOT use it in places where the temperature exceeds 35° C (95° F).
- Do NOT use it in places where it is extremely humid or outdoors.
- Do NOT use it in places where it is unstable/shaky.
- Do NOT use it in places where flammable/corrosive gas is around.
- Do NOT use it under extreme conditions like direct exposure to heat, sunlight, air conditioning, fan etc.
- Do NOT cover the product with any flammable material like clothes, papers, etc.

User's Guide

For Yamanaka Usubiki Light – Pendant Light

Use 10W or less LED bulb ONLY

Use LED bulbs only. Light bulbs other than LED bulbs may damage the lampshade that is made out of natural wood.

- The voltage used must be AC100V. The deviation from this may result in fire, damage to the product.
- LED bulbs also get hot. Do NOT attempt to touch it when it's in use or is hot.

Maintenance Instructions

※Turn off the power at its main circuit panel and let the LED bulb cool before touching it.

Hold the product by the socket base or the top/relatively hard part of the lampshade because it is very fragile. Hold it like you hold a piece of fine glassware.

- Regularly dust the product. But do use extra care when dusting to avoid any damage to it.
- Do NOT clean the product with any cleaning agent that contains chemical ingredients to avoid any damage to it.
- Have a periodical product inspection for any damage, exposed wire, etc. at least once in every 6 month to maintain the product safety.
- Do NOT wash the product to avoid any damage to it.
- After each maintenance, be sure the lampshade is securely attached to the socket base and the lighting fixture securely/safely installed to the ceiling to avoid any accidental fall.
